EXPERIENCE

NATURALLY

Composting is natural.

2cg is the natural choice for composting consultation.

2cg has the experience, the specialized abilities and the creativity that delivers the best workable solution for composting challenges.

2cg is well-respected by clients across the country and internationally.

2cg delivers comprehensive and imaginative solutions.

And 2cg understands budgets and timelines.

2cg offers consulting services to municipalities and commercial clients.

Whether the project is to kick-start or upgrade a program, to review compost facility operations, or ensure regulatory compliance, 2cg does it.
